DEBORAH HARRIS WORKSHOP:

“Functionally Elegant”

February 14, 15, and 16

Please see the following pages for workshop details and send your completed registration to Christina Sydor right away.

Christina says...

“If you are planning to attend the Deborah Harris workshop, please send your registration to me ASAP. We need about 18 more members to sign up for the workshop in order to break even, so if you're sitting on the fence now is the time to support our workshop programs.

“Deborah is an amazing and funny potter with a variety of throwing, hand building and finishing skills. In her two-day, demo only workshop, she'll throw, alter and hand-build pots, boxes, stamped dishes and her lively drape-mold platter. Plus she'll discuss ergonomic solutions to common potter issues.

“For anyone that's seen and been enthralled by her wide range of elegant wares, now's your chance to see Deborah create that beauty in person.”

Please complete the registration form or, for questions or more information, contact Christina Sydor at clsydor@gmail.com (919-607-2522).

Deborah Harris has been a full time studio potter in Chapel Hill, North Carolina, since 1997. Her pottery education began at local art centers and soon expanded to include workshops at Arrowmont and Penland School of Crafts. In addition, Deborah teaches wheel, porcelain and glaze classes at Claymakers in Durham and Sertoma Arts Center in Raleigh, NC.

She says, *“Objects used and handled during everyday routines become familiar and comfortable. Functional tableware is an integral part of the routine and pottery can serve a warm and welcoming part.”*

“My work begins on the potter’s wheel. Porcelain is my first choice for a clay body. It has a silky touch while being turned and can be finished to the softest, smoothest surface. Texture is then achieved with various ribs, carving tools, handmade stamps or found objects. The work is then bisque fired to make it strong enough to handle and glaze. Once the glaze is applied and decoration is complete, the ware is fired a second time in either a soda or gas kiln using a reduction atmosphere. Japanese Shino and Celadon glazes are used on most of my tableware. The whiteness of the clay body allows the glaze colors to shine. Sometimes subtle and sometimes dramatic variations in these glazes make each individual piece unique.”

“My work is influenced by many factors, especially world cultures, human movement and living in a state so exceptionally rich in pottery history. I plan to continue to refine my techniques and experiment with new ideas, in hopes that my work will continue to evolve through clay’s infinite potential.”

Wheel Thrown, Altered, and Assembled Pottery

Deborah will demonstrate both on the wheel and some of her hand-built pieces such as boxes, stamped dishes, and a drape mold platter. Mark Gordon Gallery Talk

Friday, Jan. 31, 6 pm

“Pushing the Envelope”—Discover the creative potential of an innovative method of producing an assembled clay vessel. The techniques demonstrated and applied during this workshop offer you new possibilities for class projects building on clay’s physics and its materiality—and pushing limits can be fun! Educators are encouraged to attend the workshop as a team with another teacher from their school, to explore the potential for curriculum integration and interdisciplinary collaboration. On Friday evening, teachers will join Mark Gordon at his gallery opening/artist’s talk at the Cary Arts Center. Mark says, “Folks are free to attend the opening January 31 and workshop participants need only attend the February 8th workshop.”

Workshop Dates:

TRIANGLE POTTERS’ GUILD BUSINESS MEETING JANUARY 7, 2014

PRESIDENT Nancy Schecter welcomed new members Chris Olton, Michelle Laing, and Chelsea Dunlap.

She thanked Conrad for hosting the very enjoyable holiday party in December even though the weather precluded a raku firing. If you would like to have your pots fired at a later date, please contact Conrad who has kindly

offered to do them individually.

She thanked Eric Payne for providing refreshments.

LIBRARIAN'S REPORT Edge reported that a large box of newly sorted books was being put back on Tuesday. He also asked that proposals for new book purchases be e-mailed to him. (The library has a generous allowance for the purchase of new books.)

CORRESPONDING SECRETARY Susanne Uno asked that contributions for the Newsletter be sent to her by mid-month.

WEBMASTER Nancy thanked Gail Lawson for all she has done and then appealed once more for a volunteer to take over the position. There was general applause when Joanne Wood volunteered. Later, however, Joanne transferred that role to Theresa Gibson who has more experience with website maintenance. Theresa's son Jason will design TPG's new website as the old software is no longer available. TPG thanks you, Joanne, Theresa, and Jason.

ONGOING BUSINESS Members were reminded of the new **DUES POLICY** as stated in the December Newsletter.

ANNOUNCEMENTS

Stone Soup: Nancy thanked Urban Ministries Liaisons Emily Malpass and Ann Terry and donors of pots and volunteers for this event. A total of 260 pots had been donated and \$6,850 had been raised for Urban Ministries to help the poor. On behalf of Emily she appealed to all Guild members, not just donors, to complete a survey monkey which will be included in the next newsletter (<https://www.surveymonkey.com/s/KL8NTPS>).

An Urban Ministries presentation will take place in March and it is hoped that a Stone Soup committee will be set up. Urban Ministries will pick up donated pots at April, September and November meetings at the Crafts Center and at Pullen.

The \$100 Highwater clay gift certificate raffle for which all members who had donated more than five pots were eligible to submit their names was won by Eric Payne.

WORKSHOP Christina Sydor reminded us of the Deborah Harris Workshop that will take place in February. She had brought in samples of Deborah Harris's work. Sign up forms were available and they will also be included in the next newsletter.

MARK GORDON Eoline Killough introduced Mark Gordon who engagingly talked and showed pictures of his experiences traveling and recording world potteries, living on a shoestring for years, and building mammoth sculptures after his return to the States.

Member News

From Theresa Glisson

We have a new TPG website being developed to replace our current site. I have volunteered for the webmaster position. My son, Jason Glisson, has volunteered to design a new site for us, free of charge. Jason is Senior Account Manager for a web design firm in Alexandria, Va. He will be designing a very "user friendly" site. So after the initial set up, I, or whomever is the acting webmaster, will be able to upload photos and add any current information that may need to be added to the web site. When we get further into the development of the site, we will begin collecting photos of members' work to be added to the site. If you have ideas or suggestion of things

you would like to see on the site you can email them to me at: taglisson@gmail.com or call me at 919-731-2789. It isn't a guarantee that your suggestion will work for the site, but we are willing listen to any ideas you may have. So look for our new TPG website to be launched sometime in April 2014.

From Cheryl Weisz

The ARTIST EXPRESS returns to NCSU! Monday evenings, March 3, 17, 24, 31, April 7 and 14. 6:30pm sharp - 9:30pm approx. 6 classes, 15 participants max. NCSU Crafts Center, Frank Thompson Hall (downstairs) 2241 Dunn Avenue, Raleigh, NC 27607.

You've never taken a course like this. This reality course of study and applied action to the real world of art is everything they never taught you in college about how to get what you want from your art in reality. It is comprehensive and we have a 97% success rate out of 9023 grads. This course is a **MUST** for any artist in any creative, visual or performing art in which they want to thrive. It utilizes (1) personal exploration (what do you want to gain from creating your art and why), (2) strategies (once you learn what you want, then we co-author a plan for you personally to get it), (3) contacts and venues (where best your works or performances fit with what's out there), (4) actions (you take-it-to-the-streets between classes), (5) support (return to class and learn more), and (6) celebrations when each participant accomplishes their goal!!!! (It's usually cake at the end of the 6 weeks.)

FREE INFORMATION EVENING with the instructor Cheryl L. Weisz, MA, AM will be Monday, Feb. 24th, 7pm sharp – 8pm approx. in the NCSU Crafts Center. Presentation will include a syllabus of the course and Q&A.
